

NATURE & GOURMET ATTRACTIONS

Exceptional products

During this day you will get the chance to meet real "characters". Authentic and in love with their professions, they will know how to transmit their passion.

Your day starts with the discovery of an impressive natural site: the Gorges du Fier

Since 1869, the gorges have been accessible to the public via a 252 metre long footbridge, **suspended at 25 m above the Fier River** (a tributary of the Rhône). Venture deep into a sensational spectacle, where the Fier River rushes along underfoot, and enjoy the amazement of this incredible landscape of crazily-shaped boulders stacked on top of each other. The magical interplay of natural light and shade centre stages incredible faces along the rock face... see if you can find them! You'll also get the chance to see a multitude of Giants' cauldrons, formed by erosion over thousands of years. Halfway along your trek, a measuring scale on

the rock face shows the high water marks reached during floods. No need to worry though... **it's totally risk-free and made to be enjoyed by everyone!**
